

Tutorial: Setting Up AWS Educate Student Accounts

First and foremost, please create an account at the following link:

<https://aws.amazon.com/console/>

Creating this account is necessary for a step later on in the guide. If you do not create an account at the above link before starting this guide, you will likely get confused later on.

Let's start with this link: <https://aws.amazon.com/education/awseducate/>.

You'll see the webpage of AWS Educate as below (Fig.1).

For this part, you need to choose the first choice “Click here to enter an AWS Account ID”. You will have \$100 balance in your account, and you must provide them with your credit card information. The second option may not work well in some situations, so it is not

recommended. You get the **AWS Account ID** from the account I told you to create at the very beginning of the guide.

Log into your email and retrieve your verification code.

Step 3. Verify Email Address

We need to verify the email address you provided in your AWS Educate application before we can process it.

We sent an email address verification message to your mail box at yinkexin@udel.edu. Please check your messages and input the verification code provided in the email.

Please do not close this page until you enter the verification code sent to your email address. If you close this page before entering the verification code, you will need to restart the application process. If you don't receive an email with the verification code in a few minutes, try checking your spam or junk mail folders.

Verification Code

Please click the box below to help assure that a person and not an automated program is submitting this application. If a set of letters is displayed enter them on the line. If you have any difficulty with the letters, you can click the reload icon to get a new set of letters, or click the headphones to hear audio of what to enter.
